

Frederick Thomas
ELECTRICAL & MAINTENANCE LTD

WHITE CUBE GALLERY, MASONS YARD

LEISURE

Frederick Thomas Electrical & Maintenance Ltd. successfully won the tender for this fast track contract for the installation of electrical services in a new-build art gallery for White Cube in London's fashionable West End.

The installation of all equipment was subject to stringent Architectural requirements to achieve the desired aesthetics and was undertaken with our sister company Frederick Thomas (Building Services) who were awarded the mechanical installation to create a joint M&E venture.

The galleries, offices and service areas were arranged over six floors including a roof terrace, lower ground and basement levels being located in a mews off Piccadilly, London.

Functional and emergency lighting was installed throughout with the galleries in particular being illuminated with scene-setting 0-10V analogue dimmable fluorescent and dimmable spot lighting, set using Lutron control equipment. Non-dimmable spot lighting was also utilised.

An analogue addressable fire detection/voice alarm system complete with Redcare monitoring was installed throughout.

Other services installed include CCTV, access control, intruder alarm, data and automatic smoke ventilation window opening
