

**Frederick Thomas**  
ELECTRICAL & MAINTENANCE LTD

**RETAIL**

HOUSE OF FRASER, VICTORIA

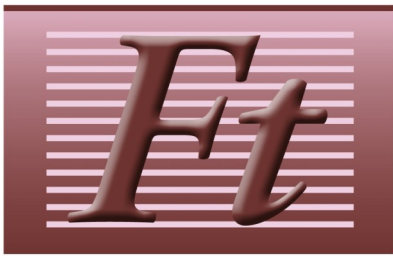

Frederick Thomas Electrical & Maintenance Ltd were delighted to be awarded the refurbishment of the flagship House of Fraser department store in Victoria London as a design and build electrical project, awarded via a competitive tendering process.

The project was completed whilst maintaining trading conditions, to programme and to budget. The majority of the works were being undertaken out of trading hours over multiple construction phases.

Lighting throughout was replaced to LED which dramatically reduced energy consumption for a rapid pay back on investment. The project was split in to three competitive contracts which had us in contact with House of Fraser direct, Philips and Barlow Shopfitters Limited

Frederick Thomas have been a House of Fraser partnering electrical contractor for many years having refurbished other stores, undertaken small works projects, provide reactive planned maintenance works on a M&E basis throughout their UK estate
