ELECTRICAL & MAINTENANCE LTD

## RETAIL

### MASSARELLAS CAFE

Frederick Thomas Electrical & Maintenance Limited undertook the design and installation of all electrical services including new mains, switchgear and small power to the catering equipment and lighting within this fashionable venue.

Frederick Thomas (Building Services) Limited, our sister company, designed and installed the pipework services to the cookers and washers together with the public health services. In addition a comfort cooling system was provided to ensure comfortable environmental conditions.

The electrical and mechanical services were fully co-ordinated in-house and installed under fast track conditions.

To create the desired ambience for an eating house, the lighting was designed to provide variable light sources including modular recessed fluorescent, CDM-T downlights and compact fluorescent to compliment the suspended feature light units.

Neon impact signs were used in façade and window line displays

**Client/Developer:** Massarellas Restaurants

**Architects:** GIA
